## Millers populäraste pinnfräs till kraftigt sänkta priser

- Mångsidig
- High Performance fräs med hög produktivitet och god ekonomi
- Differentialdelad skärsättning samt 36/38° spiralvinkel
- MF2-beläggning för god slitstyrka

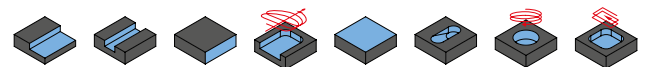

**P M K**

## OptiMill®-Uni-HPC-Plus

Universalfräs för bl.a

- Valsfräsning
- Spårfräsning
- Dynamisk fräsning

# Product and technology

## Product characteristics

- Fast and economical to the full groove
- Big range of applications in steel, cast iron and stainless steel
- High machining chip-volume with extremely smooth running

## Top 3 features

- ✓ Diverse range of length and corner designs
- ✓ For roughing and finishing operations
- ✓ Versatile use with different milling strategies

## OptiMill®-Uni-HPC-Plus range:

- M3090P – short design, chamfer
- M3094P – normal design, chamfer
- M3094P-CR – normal design, corner radius
- M3190P – long design, chamfer
- M3190P-CR – long design, corner radius
- M3194P – extra long design, chamfer
